7000 Series ServerRack Cabinets

The ServerRack Series of Server Rack Cabinets opens new horizons in performance and value. Designed to exceed the demanding requirements of the global 19" Rack market, our ServerRack Series offer an excellent combination of quality, features, and cost effectiveness. Features such as enhanced thermal management, system expandability, multi-system compatibility, structural integrity, security and compliance to internationally recognized standards are joined together in a rack series which provides exceptional value for your investment.

Our ServerRack 7000 series offers an excellent combination of quality, features and cost-effectiveness. This series comes packaged in only three (3) boxes for an easy assembly by the user, comes with an integrated Fan ventilation system at a very reasonable cost when compared to the ServerRack 8000 Series which comes packaged in five (5) boxes and with the ventilation Fans as an option.

The 7000 series have a very robust structure, permitting heavy loads of network cabling and/or equipment in a self-contained rack.

Features

- | | |
|--|---|
| <ul style="list-style-type: none">■ Very high performance/cost ratio, the best value from our line of products.■ Capacity to mix different products and applications in the same rack.■ It can be customized to our client specifications in different colors and /or specific depths.■ It is easy to assemble and comes packaged in three (3) boxes only.■ High quality locks and optional locks for side panels available.■ Shelves for different depths and loads are available.■ Up to 800 kg of static load capable.■ Side doors available with locks without keys (Standard) or with keys for better security (Optional).■ Three (3) types of doors available: Solid, Perforated and Glass). | <ul style="list-style-type: none">■ Optimal Ventilation for applications in which active equipment are used.■ Heavy duty ball bearing Casters with 250 Kg weight capacity and optional security brakes with locks.■ Fixing posts for securing the rack into position for permanent placement.■ Heights from 18 U to 47 U.■ Depths from 600 mm to 1200 mm for powerful modern servers and their cabling systems.■ High SPCC grade sheet steel.■ Phosphate primer and electrostatic powder painted for scratch resistance.■ Basic color is black.
